Ohio report cards use multiple measures to determine each school's designation. The table below shows the 23 state indicators, which are based on the statewide assessments, graduation rates and attendance rates. Page 2 includes the federal Adequate Yearly Progress determination and the Performance Index Score calculation. These measures contribute to the school designation.

### ADEQUATE YEARLY PROGRESS (AYP) FOR SCHOOL YEAR 2004-2005

The table below shows the percentage of students proficient or above in your school based on federal AYP requirements. To meet the federal AYP requirements, <u>every</u> student group must be at or above the annual goals or make improvement over last year. Graduation or attendance goals must be met for the school as a whole.

<sup>&</sup>lt;sup>2</sup>The goal shown is for the "all students" group. Each student group has customized goals based on the number of students from each tested grade, which may vary slightly from the goal shown.

NR = Not Required for AYP due to student group size below minimum number for statistical reliability. The minimum student group size is 30, except "students with disabilities," which has a minimum group size of 45.

#### PERFORMANCE INDEX SCORE

The Performance Index Score reflects the achievement of every tested student. The score is a weighted average of all tested subjects in grades 3, 4, 5, 6, 7, 8 and 10. The most weight is given to the advanced students (1.2), and the weights decrease for each performance level. This creates a scale of 0 to 120 points, with 100 being the goal. Looking at the Performance Index Score over time shows trends in school achievement.
