

College Credit Plus and Advanced Placement

Fort Loramie High School

Mrs. Francis

What is College Credit Plus?

College Credit Plus is Ohio's dual credit program

- Students can earn high school and college credit at the same time
- Ohio residents in grades 7-12
- All public colleges and participating private colleges in Ohio
- Courses can be held at the high school, on a college campus or online

Student Participation in CCP

1. Students and parents must attend an informational meeting about CCP with the high school counselor
2. Students must show College Readiness:
 - Students should apply by March 1st to the college they intend to take courses through
 - Students must meet CCP eligibility guidelines
 - 3.0 GPA or
 - Remediation free scores on college placement exam, or
 - 2.75 GPA with A or B average in English and/or Math
 - Note: Program Eligibility is not the same thing as Course Eligibility
3. Once accepted, students must make an appointment with Mrs. Francis to go over course selection

College Eligible vs. College Ready...

- Considerations:
 - Social & emotional transitions with college expectations
 - Time management & organizational skills
- Mature Content Clause:
 - The subject matter of a course enrolled in under the CCP program may include *mature subject matter or materials, including those of a graphic, explicit, violent, or sexual nature*, that will not be modified based upon CCP enrollee participation regardless of where course instruction occurs.

CCP Course Selection

- Students may earn high school credits through any combination of college classes and classes taken at the high school
- Students may follow the listed pathways with the partner institution; or select other courses
 - To view the complete list of available CCP courses and pathways, you can view a college's course catalog online.
- Consider your own Personal Academic Goals
 - College Choice
 - Planned Major
 - Transferology.com

CCP Course Selection

- Students can earn up to 30 hours per year, but no more than 120 hours total while in the program.
- The 30 hour threshold includes both regular high school classes & college classes.
 - *Regular high school credits are multiplied by 3 in the 30 hour calculation*
- Example: If a student is taking 4 regular high school credit courses at Fort Loramie you would calculate as follows
 - $30 - (\# \text{ of High School credits} \times 3) = \text{max \# of eligible college semester hours a student may take that year}$
 - $30 - (4 \times 3) = 18$ (student would be eligible to take up to 18 total semester hours of college credit that year)
- If a student exceeds 30 hours, the college will bill the student directly

Scheduling for CCP Courses

- Fort Loramie HS will require that students take at least **5-7 courses per semester** to maintain eligibility for sports and also to maintain a full-time course schedule
- We currently have numerous CCP options built into our FLHS schedule for this year and we are working to get this accomplished for next year.
 - *See page 8 in your CCP Handbook for the complete list.*

Scheduling for CCP Courses

- **Scheduling Conflicts:**
 - The Fort Loramie HS Schedule takes precedence over courses delivered at a college/university
 - Students may not have room in their schedule to take all desired coursework
 - College course may be full
 - Mrs. Francis will work with students to appropriately fill their schedule but know that sometimes conflicts do arise and students must make a choice between courses

Scheduling for CCP Courses

- **UVCC Students:**
 - Potential UVCC students will work with Mrs. Francis to schedule course for the Fall of their Junior year. After that, they will work with their UVCC counselors to schedule coursework.
 - Typical UVCC Juniors will take ENG121S Composition I, PLS121 American Government, & 1-2 CCP electives of their choice, as their UVCC schedule permits.

CCP Grades

- CCP courses will not count for the **Honor Roll** unless taken here with our teachers
- CCP courses will go on the student's **High School and College Transcript** and will count as part of the student's **GPA** for both institutions
 - The grade earned in the CCP course will be the grade earned at the high school
 - CCP courses and grades will follow student to college
- Please be aware that college courses at a college/university setting will be different than taking coursework at the High School
 - Pace of college course (much faster)
 - Accessibility of instructor (must visit during office hours... may be challenging)
 - Mature Subject Matter

CCP Academic Probation/Dismissal

- A student will be placed on CCP Academic Probation if:
 - They earn less than a cumulative 2.0 GPA in their CCP courses
 - They withdraw from 2 or more courses in one academic term
- While on CCP Academic Probation:
 - Students may only enroll in one CCP course for the following term
- Students who fail to increase their CCP GPA in that following term will be dismissed from the program.
- To be reinstated to the CCP program following Dismissal, students must submit a request for reinstatement and meet the reinstatement requirements.

Potential CCP Fees and Costs

- Students attending a Public College will not be required to pay for any books or fees
 - If a student does not return their books on time to the proper place or if the book is damaged, **Fort Loramie Local Schools will seek reimbursement for each affected book**
- If a student fails a college course or withdraws from the course past the withdraw date, **Fort Loramie Local Schools will seek reimbursement for that course**
- If a student exceeds the amount of credits allowed (30 per year; 120 per program), the college will bill the student directly

Next Steps

- 1. Talk with your parent about CCP (go over pros/cons of this program)
- 2. The Intent to Participate form must be given to Mrs. Francis by **April 1, 2025** if you wish to participate in the CCP program for the 25-26 school year
- 3. Review and complete all admission requirements for any colleges/universities you may be interested in by March 1st
- 4. Once accepted, bring your acceptance paperwork and a list of potential courses to Mrs. Francis to discuss scheduling options for next year.

What is Advanced Placement?

- An upper level course where college credit can be earned through a culminating exam
 - Example: If you take an AP class you will take the AP exam at the end of the class. You will receive a 1,2,3,4, or 5 as your score. 5 is the highest.
 - The Ohio State University will give the following credit:
 - AP Physics 1
 - 3, 4, or 5 = 5 credit hours
 - AP Calculus A&B
 - 3, 4, 5 = 5 credit hours
 - <http://collegesearch.collegeboard.com/apcreditpolicy/index.jsp>

What is the difference between AP & CCP?

- AP is not a transcribed college credit; students must earn the score of 3 or better on their AP test to receive college credit at most universities/institutions of higher education
- AP is nationally tested
 - Students will learn the same material in all AP classrooms across the nation
 - CCP courses not evaluated in this format and not nationally tested

AP Classes at Fort Loramie

- **AP English Literature and Composition** – Mrs. Poepelman
- **AP Calculus AB** – Mrs. Goldschmidt
- **AP Physics 1: Algebra Based**– TBD
- **AP US Government & Politics** – Mr. Prenger

AP Deadlines & AP Agreement

- You will register for AP courses when you register for your other HS classes.
- You and your parents will sign the **AP Student Contract**.
 - Must submit this form to Mrs. Francis by **April 25th**.
 - This date is the **last day** to drop an AP course for the 25-26 school year.

Questions?

- Taking advantage of the College Credit Plus and/or the AP program has many pros and cons, and this decision should be thoroughly thought over by you and your student.
