LEADERSHIP CLASS PROJECTS

In the first semester, we offer a leadership class through our UVCC satellite programming that provides students opportunities to design and implement opportunities and efforts to assist charitable organizations and notable causes. Below is a list of the organizations and causes our students have selected to assist with various campaigns and events. It has been neat to see the students select causes that have some meaning or connection to them, and strategize to support that organization.

CCP & EDISON

The board was provided information given to us from Edison State Community College, specifically about Fort Loramie High School. In the information you can see roughly how many credits students take a year, our top courses, the grade level of students taking classes and the grades they earned, along with the average tuition savings per family.

The most interesting stat is that 67.5% of our students are taking their Edison classes at FLHS. While we think it is good that students are using CCP to their advantage, we do think our in house offerings are of great quality and offer the best value for students to choose, so this was nice to see.

 - Discussed upcoming booster group projects.
 - Reviewed the Wall of Honor program.
